

BODYCOOL BASIC

General Information

The INUTEQ-H2O® Bodycool Basic evaporative cooling vest can be worn on multiple occasions, from work to motorcycling and leisure. The cooling effect will last from 2 up to 8 hours depending on ambient temperature, airflow and humidity. Wearing this vest allows you to avoid heat stress and remain comfortably cool, thus enhancing your performance level. This product performs best in low to medium-humidity environments. The level of airflow determines the cooling effect.

Key Features and Benefits

INUTEQ® H2O® technology is engineered to deliver effective, reliable evaporative cooling for enhanced comfort in warm and demanding environments.

- **Innovative Cooling Technology:** Incorporates a unique cooling technology that activates with water to provide consistent and natural evaporative cooling.
- **Powerful Cooling Performance:** Delivers up to 15°C cooling relief below ambient temperature, helping to reduce heat stress and improve comfort.
- **Long-Lasting Cooling Comfort:** Offers up to 8 hours of cooling per activation, depending on environmental conditions such as airflow and humidity.
- **Lightweight and Comfortable:** Designed to remain lightweight during use, ensuring unrestricted movement and all-day wearability.
- **Easy to Use and Re-Use:** Simply soak in water to activate. The product can be reused repeatedly, making it practical and cost-efficient.
- **Durable, Safe, and Hygienic:** Made from non-toxic materials, the product is machine washable, features antibacterial properties, and is built for long-lasting performance.

ACTIVATION IS EASY

Soak in water

Just soak in water for two minutes

Squeeze out excess water

Gently squeeze out any excess water.

Enjoy immediate cooling

Your vest is now ready to use!

Components

Exterior:	100% Polyester
Core:	INUTEQ-H2O® superabsorbent cooling fabric with antibacterial properties.
Interior:	100% Polyester with PU coating.
